-----

Price and other details may vary based on product size and color. Need help?

It has a 12-amp low-voltage disconnect and an automatic lighting control. The lighting control turns the light on at dusk, then has an adjustable duration timer for 2 to 8 hours of run time, or ...

Illuminate your outdoor space with the Durasol 12V Solar Lighting System. With remote control functionality, this system provides convenient and energy-efficient lighting for your garden and ...

The MorningStar SunLight controllers combine the features of the ...

The SunLight SL-10L-12 builds on the industry-proven SunSaver platform and adds microcontroller-managed automatic lighting control functions for 12V solar lighting applications.

The solar controller not only extends battery life and improves system performance, but also has multiple protection functions: Battery under-voltage, over-voltage, output overload, short circuit, battery, solar panel anti-back connect protection.

The Durasol 12v solar lighting system is an all-year-round, rechargeable power source for 12v outdoor lights. This low voltage kit includes a solar ...

The solar controller not only extends battery life and improves system performance, but also has multiple protection functions: Battery under-voltage, over-voltage, output overload, short ...

Provides 10 Lighting options with accurate on-board timer and rotary digital switch (see back). User-adjustable for 2 to 10 hours ON or for ON all night. Unique ON/OFF/ON settings ...

Provides 10 Lighting options with accurate on-board timer and rotary digital switch (see back). User-adjustable for 2 to 10 hours ON or for ON all ...

The MorningStar SunLight controllers combine the features of the SunSaver controllers (including LVD) with an adjustable automatic lighting control circuit. This allows you to connect a DC light ...

Designed for demanding applications like street, pathway, and parking area lighting, this controller ensures precise and efficient solar-powered illumination. It requires a minimum 1-watt solar ...

The SunLight SL-10L-12 builds on the industry-proven SunSaver platform and adds microcontroller-managed automatic lighting control functions for ...

The Durasol 12v solar lighting system is an all-year-round, rechargeable power source for 12v outdoor lights. This low voltage kit includes a solar panel, battery and remote controller, as an ...

All EcoLiteco solar lighting controllers, converters and signal inverters are built in North America and made specifically to address DC-power lighting requirements. Our current controllers ...

All EcoLiteco solar lighting controllers, converters and signal inverters are built in North America and made specifically to address DC-power lighting ...
