Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The 20ft High Cube Solar Container is a smart and sustainable solution designed for off-grid operations, mobile power supply, and energy-independent work sites.

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

The 20ft solar-powered container is the final answer to speedy deployment, inexpensive power generation and a clean energy tomorrow. Disaster relief after a catastrophe ...

Cool-Watt® is a solar power plant designed as a 20 feet maritime container, pre-cabled and pre-tested so that it can be deployed in less than 1 hour without civil engineering or ...

LunaVault Applications: The best applications for off-grid, big gains, and time of use. The LunaVault is a pre-assembled microgrid solution that ...

Housed in a 20-foot container, this system integrates solar PV, energy storage, and advanced control components into a single unit, making it ...

The 20ft solar-powered container is the final answer to speedy deployment, inexpensive power generation and a clean energy tomorrow. ...

At Premium Container Solutions, we offer a wide range of new and used shipping containers designed to meet
