$2 + 2 = 5$ or two plus two equals five is a mathematical falsehood which is used as an example of a simple logical error that is obvious to anyone familiar with basic arithmetic.

Thanks to this partnership, responders in Georgia will be able to bring their own environmentally sustainable solar microgrid trailer power source with them, providing vital ...

This is an online scientific calculator with double-digit precision that supports both button click and keyboard type.

Engineered for rapid plug-and-play deployment, 5-6 personnel complete setup in 8-12 hours (no professional tools/complex construction), making it ideal for off-grid remote areas, emergency ...

Online calculator for quick calculations, along with a large collection of calculators on math, finance, fitness, and more, each with in-depth information.

Atlanta groups unite to build solar power trailers for sustainable emergency relief. A new solar microgrid trailer made possible by UMCOR and partners was unveiled at RayDay, ...

Emergency Power Containers, also referred to as containerized solar energy systems or foldable PV storage containers, have become the go-to solution for disaster ...

Some people think $2+2=5$... and they might be right. A statistician explains how abstract math can have real-world limitations.

A coalition of Atlanta-based partners has come together to make disaster response more sustainable in Georgia
