---

Explore our selection of quality 36 volt solar chargers that are built for long-term durability and reliability. Includes impressive electronic protections.

Maximize solar energy storage with the Victron 60A 250/60 Smart Charge Controller. Ensure fast charging and extended battery life with advanced SmartSolar technology.

With an ultra-low self-consumption of just 0.18W in 12V systems -- significantly lower than the 0.7W of other charge controllers -- this MPPT solar charge controller ensures that more of ...

This display shows charging parameters (voltage, current, power) for the solar panel and battery as well as 30 day performance data and any system faults. The user can also set their own ...

The unit will automatically select between 12V, 24V, or 48V on the output so long as the installation is performed as directed; 36V charging must be manually configured through the ...

This display shows charging parameters (voltage, current, power) for the solar panel and battery as well as 30 day performance data and any system faults. The user can also set their own ...

Intelligent 60A MPPT solar charge controller / regulator for solar panels up to 860W (12V battery system) / 1720W (24V battery system) / 2580W (36V battery system) / 3440W (48V battery ...

Renogy Rover Lite MPPT Solar Charge Controller - stop overcharging your 12 volt batteries and eliminate unneeded battery discharge with this convenient, maintenance free controller.

Rover Lite 60A 12V/24V/36V/48V MPPT Solar Charge Controller - 150V Max Input, Auto for Lithium/AGM/Gel Batteries, RV Marine Off-Grid & DIY Solar Kits. We offer easy, convenient ...

LiTime 60A MPPT charges batteries at 99% solar efficiency. LCD display, multiple protections and heat dissipation for lead-acid/LiFePO4 batteries, maximizing solar energy harvesting for off ...

Renogy Rover Lite MPPT Solar Charge ...
