"We have aligned our product portfolio to market requirements with embedded flexibility to rapidly adjust to evolving customer needs, offering highly reliable, efficient, and ...

EPointZero, the decarbonisation arm of the global investment platform 2PointZero, has recently sealed a landmark agreement to acquire a 1 gigawatt-hour (GWh) battery energy ...

"Supercap energy storage, developed by Enercap in the UAE, provides the leap in storage technology that is necessary to accelerate the adoption of renewables, electric ...

"We have aligned our product portfolio to market requirements with embedded flexibility to rapidly adjust to evolving customer needs, ...

At the heart of this transformation is Enercap Holdings" innovative graphene-based supercapacitor technology, now set to scale dramatically through a new joint venture with Abu ...

The joint venture is expected to help meet the global demand of over 30GWh for large-scale battery energy storage systems (BESS). Apex will hold a 65% share in the ...

"Supercap energy storage, developed by Enercap in the UAE, provides the leap in storage technology that is necessary to accelerate ...

"From rechargeable AA cells to mobile phone storage to EV charging stations to utility grade storage, we have spent the past five ...

At the heart of this transformation is Enercap Holdings" innovative graphene-based supercapacitor technology,

now set to scale ...

The joint venture is set to meet exponential growth in demand. This will currently be the largest supercap energy storage manufacturing capacity in the world.

Mark Blackwell, CEO of Apex said, "Stable, predictable and long-life performance from energy storage is essential to efficiently scale its ...

The joint venture is expected to help meet the global demand of over 30GWh for large-scale battery energy storage systems (BESS). ...

"From rechargeable AA cells to mobile phone storage to EV charging stations to utility grade storage, we have spent the past five years building the most advanced energy ...

ABU DHABI (WAM) EPointZero, the decarbonisation arm of 2PointZero, a global investment platform, on Monday announced the strategic purchase of a 1 GWh battery system ...

The joint venture is set to meet exponential growth in demand. This will currently be the largest supercap energy storage ...

Mark Blackwell, CEO of Apex said, "Stable, predictable and long-life performance from energy storage is essential to efficiently scale its deployment with renewable generation to replace ...
