JA Solar, a global leader in photovoltaic (PV) technology, is driving Ghana's renewable energy transformation with the successful installation of a 507 kW rooftop-canopy ...

The solar project at Sege in the Greater Accra Region is near the Dawa Industrial Zone, which is earmarked to benefit from the ...

A solar + battery storage system enables users to capture free solar energy during the day and store it in high-capacity lithium batteries for use at night or during blackouts.

Any excess energy is stored in the BOOSTESS energy storage system. At night, when solar generation is unavailable, the system automatically takes over to supply ...

Situated in a prominent location within the capital, the NITA installation constructed by RIFE Ghana is projected to generate 696,000 kWh per year, contributing to the agency's ...

The solar project at Sege in the Greater Accra Region is near the Dawa Industrial Zone, which is earmarked to benefit from the renewable energy project.

It paves the way for the joint development of battery storage and renewable energy facilities aimed at enhancing the state's energy resilience and aligning with national sustainability goals.

Accra -- Ghana has launched West Africa's largest floating solar project, marking a significant step towards increasing its renewable energy capacity. The country aims to raise its ...

Accra, Ghana - In a move to increase its use of clean energy, Ghana has unveiled the biggest floating solar
