Does Addis Ababa have a 5G network?

Our company has commercialized the 5G network in Addis Ababa and is ready to offer unlimited 5G data, 5G To The Home, and a variety of 5G mobile packages to our esteemed customers.

Does Ethio telecom offer 5G service?

Ethio telecom offers 5G service to customers with 5G-supporting mobile phones or devices and who are in 5G network covered areas. To enjoy the service, they need to buy a 5G package. Only 5G-supporting mobile devices can access the 5G service.

How much did Ethiopia spend on a 5G roll-out?

Ethiopia spent the sum of \$40 million to finalise the roll-out. Ethiopia's state-owned telecommunications company, Ethio Telecom, has launched the first 5G network in the Horn of Africa. Local media reported that the launch took place Monday May 9, following deployment of the service by China-based Huawei Technologies Co.

Who can access Ethio Telecom's 5G service?

Ethio Telecom's 5G package is available to all prepaid, postpaid, and hybrid 5G SIM subscribers. To access 5G speeds, consumers must have 5G-capable devices and be in 5G network coverage. They can update their 4G SIM to 5G or subscribe to a new 5G SIM.
