How to get to Ankara airport?

The airport is connected with Kizilay (the city center) and Ankara Intercity Bus Terminal (Turkish: Ankara Sehirlerarasi Terminal Isletmesi, ASTI) by EGO city bus number 442 (from 6 am to 11pm). Transportation to the city center is also by taxi (around TRY 900 one way, metered) and through the Havas bus line (approximately TRY 120 one way).

Where is Ankara airport?

The airport is located northeast of Ankara, 28 km (17 mi) from the city center. The airport is connected with Kizilay (the city center) and Ankara Intercity Bus Terminal (Turkish: Ankara Sehirlerarasi Terminal Isletmesi, ASTI) by EGO city bus number 442 (from 6 am to 11pm).

Are smart containers a solution to global trade problems?

The adoption of smart containers promises to mitigate longstanding challenges such as port congestion, inefficiencies in fleet management, and environmental concerns, paving the way for a more sustainable, responsive, and resilient global trade ecosystem.

What is a smart container?

Smart containers can also provide accurate Estimated Times of Arrival (ETAs) for containers arriving by truck, rail, or barge, facilitating smoother terminal operations. Smart containers also improve the handling and management of dangerous goods. They provide precise, real-time data on shipping container location and contents directly to the
