What arc flash mitigation solutions are available?

Improve safety with our extensive portfolio of arc flash mitigation solutions including arc quenching and arc-resistant switchgear, Power Xpert XGIS switchgear, Power Xpert Dashboard, Power Defense molded case circuit breaker, Insulgard, arc flash relays and more.

What is AFR-m busbar arc flash protection relay?

AFR-M Busbar ARC Flash Protection Relay is a cost-effective solution that reduces arc-fault damage, by detecting the light from an arc flash and rapidly tripping in low-voltage (LV) or medium-voltage (MV) electrical networks. This arc flash protection relay can access a maximum of 48 ultraviolet optical sensors.

What is arc quenching switchgear?

Arc Quenching Switchgear minimizes or eliminates damage to switchgear in the event of an arc fault, protecting valuable switchgear assets from arc flash damage. It is designed to reduce peak fault current by at least 25% and peak stress on upstream equipment by at least 44% when compared to a bolted fault device.

Can a relay and breaker be used to clear an arc flash?

Relay and breaker settings can often be optimized to trip quickly to clear an arc flash event but also maintain coordination. When coordination cannot be maintained to achieve desired arc flash results, a maintenance switch can be added.

Available in a wide range of ANSI ratings and configurations, our switchgear features utility-grade, welded, metal-clad assembly for reliability, safety and long service life.

Unauthorized collecting of the e-mail addresses through this website by e-mail collecting programs or any other technical devices is denied. Please note that this criminal penalties by ...

AFR-M arc flash protection relay offers 48 channel high-speed arc-flash detection for the fast clearance of arcing faults on BUS bars & within ...
