The Asian Development Bank (ADB) today announced the signing of an USD-820-million (EUR 779m) loan with the renewables subsidiary of Gulf Energy Development PCL (BKK:GULF) to ...

With ongoing deployment of variable renewable energy technologies, such as solar and wind power, the opportunities for energy storage projects will increase. Long-term plans to liberalise ...

The Asian Development Bank (ADB) today announced the signing of an USD-820-million (EUR 779m) loan with the renewables subsidiary of Gulf Energy Development PCL (BKK:GULF) to support a substantial increase of ...

This project further demonstrates Sungrow's proven expertise in delivering large-scale PV inverters and battery energy storage systems (BESS). The first phase, spanning five project sites, represents one ...

The pace of Thailand renewable energy expansion is picking up, and the targets are bold. With a growing focus on solar, biomass, and innovation, the country is laying the foundation for a greener future.

What is thought to be Southeast Asia's single largest battery energy storage system (BESS) to date will be supplied to a solar PV-plus-storage project in Thailand by Sungrow.

Then, to support the globally recognized goal of carbon neutrality, EGAT is preparing to develop 24/7 renewable energy with Solar-Hydro-Battery Energy Storage (SHB) which uses battery ...

"This portfolio of projects significantly enhances solar energy and solar energy with battery storage in Thailand, marking a major step forward in the country's goal of achieving carbon ...

Enter the Bangkok hydropower energy storage project as the reliable dance partner. Last July, when clouds played hide-and-seek with solar panels, the PSH system provided 18% of central ...

As Bangkok's skyscrapers shimmer under the tropical sun, a quiet revolution is unfolding beneath the city's energy grid. Shared energy storage power stations--the kind of innovation that could finally ...

As Bangkok races toward its 2030 renewable energy targets, the Bangkok Energy Storage Power Station Project emerges as a game-changer. This article explores how cutting-edge battery storage ...

Then, to support the globally recognized goal of carbon neutrality, EGAT is preparing to develop 24/7 renewable energy with Solar-Hydro-Battery Energy Storage (SHB) which uses battery to enhance renewable energy security.

The pace of Thailand renewable energy expansion is picking up, and the targets are bold. With a growing focus on solar, biomass, and innovation, the country is laying the foundation for a ...
