---

The project is developed in Vise, Liege province, in partnership with Belgian energy company Luminus. The facility is designed to stabilise Belgium's electricity grid, ...

The Belgian Infrastructure Fund is proud to announce the closing of the financing of a cutting-edge 600 MWh Battery Energy Storage System (BESS) in Vis&#233; together with ...

Rated at 600 MWh, the project will be one of the country's largest when it comes on line, capable of absorbing excess wind- and solar-powered electrons for release when ...

Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440MWh of capacity in Belgium, following financial close, ...

SunGrow and ENGIE have stated that the second phase of the 200MW/800MWh battery energy storage project in Belgium is set to be completed by the end of the year, ...

In a major step toward enhancing Europe's renewable energy infrastructure, SUNOTEC and Sungrow have signed a strategic agreement to deploy 2.4 GWh of battery ...

Green Turtle battery park, among the largest in continental Europe, will feed 700 MW of renewable energy back to the grid. Tractebel is Owner's Engineer on this landmark ...

Once fully operational, the Terhills BESS will provide a total of 200 MW of power and 400 MWh of energy storage. Highlighting the rapid pace of innovation in Belgium, while ...

Designed to provide essential grid-balancing services, the battery installation will manage fluctuations between electricity supply and demand, particularly those caused by the ...
