---

Ahead and heading into a new era for new energy, it is expected that China's energy storage capacity and its BESS capacity in particular will grow at a CAGR rate of 44% between 2023 ...

The project involves the construction of a sophisticated 60 MW battery energy storage system (BESS) combined with a virtual power plant (VPP) in Sibenik.

EBRD invests EUR16.8m in Croatia's first large-scale battery storage and virtual power plant - its first equity stake in standalone merchant Battery Energy Storage System ...

With a comprehensive route-to-market study, an energy producer's BESS project will maximize profitability and efficiency.

The Croatian battery news came in the wake of plans for a standalone utility-scale battery storage system in Serbia. The office of the Mayor of Leskovac revealed plans for a 125 ...

Analysis of the 2025 global battery storage boom, highlighting a record 92 GW deployment led by China and the U.S., driven by falling costs and the push for grid stability ...

This graphic highlights the top 20 BESS markets by current and planned grid capacity in gigawatt hour (GWh), based on exclusive ...

Welcome to our European Market Outlook for Battery Storage 2025-2029 Though the battery energy storage revolution continued to unfold across Europe in 2024, setting yet another ...

EBRD invests EUR16.8m in Croatia's first large-scale battery storage and virtual power plant - its first equity stake in standalone ...

The Asia Pacific battery energy storage system market is expanding rapidly, driven by accelerating renewable energy deployment, rising electrification needs, and a growing focus ...

As with the EV market, China currently dominates global grid deployments of BESS, but in coming years other markets will grow ...

This graphic highlights the top 20 BESS markets by current and planned grid capacity in gigawatt hour (GWh), based on exclusive data from Rho Motion as of February 2025.

As with the EV market, China currently dominates global grid deployments of BESS, but in coming years other markets will grow significantly, fuelled by low-cost lithium-ion ...
