What is Bhutan's energy security & sustainable growth policy?

Titled "Empowering Energy Security & Sustainable Growth," the policy consolidates and supersedes several prior frameworks, including the Bhutan Sustainable Hydropower Development Policy 2021, Alternative Renewable Energy Policy 2013, Domestic Electricity Tariff Policy 2016, and National Energy Efficiency & Conservation Policy 2019.

Why is Tata Power partnering with Bhutan?

Mr. Dasho Chhewang Rinzin, MD, DGPC said, "This strategic partnership with Tata Power is in keeping with Bhutan's aspirations to maximize benefits to the people of Bhutan through fast-tracking the harnessing of its huge renewable energy resources for its economic development and long-term energy security.

What was Bhutan's first mega power project?

The Chukha Hydropower Project, or Chukha Hydel, was Bhutan's first mega power project. Construction started in the 1970s with commissioning in 1986 and the government assuming full control in 1991.

How much money does Bhutan need to build a hydropower plant?

With 2,500 MW of hydropower already operational and another 3,000 MW under construction, Bhutan aims to reach a total installed capacity of 30,000 MW by 2040. Achieving this vision will require substantial investment--estimated at USD 26 billion (B), translating to an annual funding requirement of USD 1.5 to 1.6B.
