ESA, a recognized leader in solar and energy storage, is actively enhancing its initiatives in Massachusetts with the development of the Sturbridge Power and Carpenter Hill Power projects.

The following section describes how the Commonwealth will use the new technology of Energy Storage and summarizes the target for 1000 MegaWatt hours (MWh) of Energy Storage in ...

Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in Boston, ...

The company reports it now has over 800 MW/1 GWh of energy storage and solar-plus-storage systems operating or under development, which is equivalent to the power ...

Discover how ESA is advancing energy storage with its Sturbridge and Carpenter Hill projects, enhancing reliability and supporting renewable goals in Massachusetts.

US solar and energy storage development platform ESA Solar Energy on Monday unveiled plans for two battery energy storage projects in Massachusetts with a combined ...

US solar and energy storage development platform ESA Solar Energy on Monday unveiled plans for two battery energy storage projects ...

The 700-megawatt Trimount project from Jupiter Power would be the largest such lithium-ion battery farm in New England, if it opened today.

It requires investor-owned utilities to secure 5,000 megawatts (MW) of storage by 2030. This includes 3,500
