Does Brunei Darussalam have digital connectivity?

As of 2023, Brunei Darussalam ranks second in digital connectivity and access among ASEAN member states, according to a report on the Information and Communication Technology (ICT) Development Index (IDI) released by the International Telecommunication Union (ITU).

Why does Brunei have a small telecom market?

Small Market Size: With only ~450k people, Brunei's telecom market is tiny. This limits economies of scale - network infrastructure is expensive, and fewer customers means higher cost per user to recoup investments. This was one reason all networks were consolidated under UNN; competing networks would have been unsustainable.

Which telecommunication services are available in Brunei?

The country has three major telecommunications service providers namely, Datastream Digital Sdn Bhd (DST), imagine Sdn Bhd and Progresif Sdn Bhd offering prepaid and postpaid plans to subscribers in Brunei.

Does Brunei need a 'resilient network'?

The push for a "resilient network" is part of the Internet Resilience Index improvements Brunei seeks. In summary, Brunei's internet users today enjoy fast speeds at fair prices, and virtually everyone who wants access has it.

In summary, satellite internet in Brunei today is a niche, specialist service via NiAT, but the coming years might see global satellite broadband becoming available to the general ...
