Where is Hungary's largest battery energy storage system located?

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Székesfehérvár, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backups as it charts its green energy path. In neighbouring Bulgaria, a massive 124MW/496MWh battery energy storage system went live in Lovech earlier this year.

How long will a Bess unit last in Budapest?

The current storage capacity of all BESS units on site would be sufficient to supply the entire decorative and public lighting needs of Budapest for 4 hours. The supplier of the equipment is Huawei Technologies, the project's main contractor is Forest-Vill Ltd.

The new facility forms part of MET Group's broader strategy to expand its European battery storage footprint. In 2024, the Swiss ...

Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition..

MET Group installed a battery energy storage system of 40 MW and a two-hour duration at its gas power plant Dunamenti near ...

The new facility features 48 battery containers and 240 inverters, backed by 4 billion forints in state funding. The total project cost hasn't been disclosed.
