Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog, southwestern Bulgaria. The project, the largest in Eastern Europe, has been ...

Through efficient deployment, intelligent operation, and multi-scenario adaptability, Sigenergy is proving in practice what the optimal energy storage solution truly looks like.

HiTHIUM has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of 55MWh using HiTHIUM's 16 energy storage containers, each with a capacity of 3.44MWh in ...

With construction of the new facility planned for the start of 2024, it is the largest battery energy storage project already in implementation in southeast Europe according to the companies.

Bulgaria-based storage manufacturer IPS has released a new utility-scale BESS with a rated capacity of 8.1 MWh and an integrated 4 MW inverter. The X-BESS 8 system is housed in a 20 ...

Developed by Advance Green Energy AD, owned by brothers Kiril and Georgi Domuschiev, the system consists of 111 battery containers and was completed with support from ...

Bulgaria-based storage manufacturer IPS has released a new utility-scale BESS with a rated capacity of 8.1 MWh and an integrated 4 MW inverter. The X-BESS 8 system is housed in a 20-foot container footprint
