What is a foldable cargo container?

A foldable cargo container looks like a traditional container, but it offers the opportunity of saving space when it's not being used. This type of container can be folded vertically and horizontally with the port's standard machinery and, of course, handled with container spreaders. Why do we need to save space in shipping cargo?

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

What is a staxxon foldable container?

A Staxxon foldable container is folded like an 'accordion' vertically. In other words, it is 'compressed' from side to side to form a vertical, much flatter unit. Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack.

What is the weight capacity of Orbis FLC containers?

With a weight capacity of up to 900 kg, companies can transport more parts per bin and optimise space utilisation. Like most returnable plastic packaging, ORBIS FLC containers are 100% recyclable. At the end of a long service life, we offer to buy back obsolete containers and use the raw materials to produce new packaging products.

Our Tier 4 solution is simple -- and versatile enough that the entire kW spectrum of this line is powered by the same solution. This not only ensures consistent efficiency and quality across your fleet, but it ...

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular design for easy ...

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, ...

Our robust plastic bulk carriers are characterized by high dimensional stability, weather resistance, and hygiene. They are stackable, volume-reducible, and suitable for automated storage and conveyor ...

It's true, all the big shipping lines and shippers have seen the full potential of our foldable containers. Cutting out inefficiency in the supply chain and hitting corporate sustainability goals as well.

Our Tier 4 solution is simple -- and versatile enough that the entire kW spectrum of this line is powered by the same solution. This not only ensures consistent efficiency and quality across your fleet, but it also streamlines service and ...

The fully automated, horizontally folding container that combines up to 4 empty containers into one.

A foldable cargo container looks like a traditional container, but it offers the opportunity of saving space when it's not being used. This type of container can be folded vertically and horizontally ...

Sell Price List For 350Kw Folding Container in bulk to verified buyers and importers. Connect with businesses actively looking to buy wholesale Price List For 350Kw Folding Container at best prices.

This container is called the 4FOLD. HCI claims an amazing 75% saving in space as four 4FOLD containers, when stacked, take only the space of a single conventional rigid container. This ...

The repositioning of empty containers is one of the most complex problems in global freight distribution today. There are few balanced trade routes and larger ocean vessels have increased the need for ...

Our robust plastic bulk carriers are characterized by high dimensional stability, weather resistance, and hygiene. They are stackable, volume-reducible, and suitable for automated storage and conveyor systems. Thanks to their modular ...
