I designed this capacitive moisture sensor, I'm not sure if it will work. I'm posting it here to see if anyone can find anything I should fix before I order the PCB (I'm a student, I ...

What is the capacitive load and how can capacitive load be simulated? I want to monitor the current and voltages in the simulation by powering a capacitive load from the ...

I need a way to trigger a capacitive touch screen device (like a tablet) using an isolated system without touching it. For example a kid places a small gadget on a tablet screen ...

Working with resonant circuits and when $X_L = X_C$ the circuit is purely resistive. What I am having a problem picturing is what happens at f_1 and f_2 . One is capacitive f_1 and ...

Hi I am newbie here! I understand why capacitive reactance reduces inductive reactance mathematically, having a result of zero at resonant frequency. But how to physically ...

Hello there, I'd like to activate a touch switch electronically. It's a capacitive type switch. There can be no wires connected to the capacitive switch, it must come from ...

Hello All, I am trying to build a simple capacitive builder. Part of the circuit is shown as below The gate drive gets signal from a microcontroller. The pulse time can be varied ...

I am working on a power supply design but I suppose this is a general question that most people will be able to answer. I am in need of purchasing a load switch from a company ...

FTC334F is a professional capacitive touch button processing chip. It adopts the latest high-precision digital

Capacitive energy storage equipment manufacturers in Nigeria

capacitance measurement technology and can prevent various ...

This capacitive reactance can be compensated for by introducing a lumped-inductive reactance, as shown in view A. Similarly, if the antenna is too long for the ...
