What is an RV circuit breaker?

RV circuit breakers help keep your electrical system safe and operational. When too much electricity flows through your RV's electrical system, it is the job of the circuit breaker to stop the flow of that electricity. This may seem frustrating when it happens, but it saves you from melted wires, fire damage, and more.

What is the cost to buy a new RV circuit breaker?

A new RV circuit breaker costs around \$10-\$15 depending on its type and current rating. Modern RVs come equipped with outlets to provide power outside the vehicle to run any appliance. However, it can trip if an appliance draws more power than the breaker's ratings.

What types of circuit breakers do you buy?

We buy all types of circuit breakers from all manufacturers. This includes insulated, molded case, air and more. We purchase electrical transformers for all voltages ranging from 25KVA - 7500KVA and larger. We buy all types of switchgear from all manufacturers. We also can assist in removal at no additional cost.
