As the world shifts toward renewable energy, countries like Iran are rapidly increasing investments in solar power. With growing electricity demands, frequent power disruptions in rural areas, ...

"We have a shipment of industrial inverters worth \$1.6M for a power project in Iran. We need it delivered -- without delays, without customs issues, and with secure payment."

These systems, backed by comprehensive 10-year warranties, provide fast charging capabilities and low-loss performance for both residential and commercial backup applications.

The agreement, signed on Monday evening between an Iranian knowledge-based company and a Chinese enterprise, marks a significant step toward advancing Iran's renewable ...

The signing ceremony of a memorandum of understanding for cooperation in the field of production and then transfer of technical knowledge of inverters needed by the renewable industry ...

Tehran, Nov 11 (IRNA/APP): Iran and China are cooperating in the production of inverters needed by the renewable industry, as well as in transferring technical knowledge to Iran and building its ecosystem.

The cooperation between Iran and China in inverter production is expected to not only strengthen Iran's renewable energy sector but also advance its technological self-sufficiency in clean ...

The company's energy storage inverters, featuring Solis and Deye technology, manage solar panels, batteries, and grid connections seamlessly, offering blackout protection, bill savings, ...

The company's energy storage inverters, featuring Solis and Deye technology, manage solar panels, batteries, and grid connections seamlessly, offering blackout protection, bill savings, and energy independence with ...

Reports in the past months have suggested that there has been a surge in the imports of solar equipment from China to Iran.

Based in China, we specialize in delivering high-quality power conversion solutions that ensure reliable and efficient operation for various power needs. Our systems are meticulously designed to support a ...
