---

Our technology is built for flexibility, helping communities cut reliance on traditional grids while creating long-term savings. With Highjoule, Colombia gains more than storage--it gains a ...

As Colombia expands its renewable energy portfolio, creative storage options are playing an increasingly vital role to meet the nation's growing power demands. Among these, ...

In Colombia, an increasing number of households, industrial and commercial enterprises are adopting solar or backup power solutions. With its factory-direct pricing, high efficiency, long ...

Colombia's first grid-scale battery energy storage system (BESS) came online in 2023 near Medellin - a 20MW/40MWh behemoth that's essentially a giant Tesla Powerwall for the ...

Colombian energy company Celsia has announced the launch of what it described as the first solar energy storage system in the country, at the Celsia Solar Palmira 2 PV farm, ...

As Colombia expands its renewable energy portfolio, creative storage options are playing an increasingly vital role to meet the nation's ...

The AC-coupled BESS comprises a 20-foot shipping container unit with 120 battery packs totalling 2MWh of energy storage capacity with a power rating of 1MW. The LFP cells ...

Colombian energy company Celsia has announced the launch of what it described as the first solar energy storage system in the ...

With its growing renewable energy sector and unique geographical challenges, Colombian energy storage containers are emerging as game-changers. In 2024 alone, ...

The AC-coupled BESS comprises a 20-foot shipping container unit with 120 battery packs totalling 2MWh of energy storage capacity with ...

The Ministry of Mines and Energy now offers up to 40% cost coverage for commercial solar container installations. Unlike Germany's expired EEG scheme, Colombia's 2023-2030 plan ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Housed in a 20-foot, 28-tonne container, the BESS contains over 120 battery packs. This project marks the first time in Colombia that a non-conventional renewable energy ...
