This guide is about the installation of containerized diesel generator sets, covering site preparation, foundation construction, basic system installation.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application ...

Whether you are a ship manager in need of temporary ...

Move generator set against container and fully engage clamps into mating holes in container castings. On both clamps, turn the actuating hand lever ...

No matter what your power demands and challenges are, our Containerized Series generator sets will meet your needs and expectations through a selection of pre-configured models and options.

We rely on a dual pack configuration to achieve the kW outputs on the higher end of our containerized line. Simply put, dual packs are two parallel generators in one ISO container: ...

At CPS, we specialise in offering high-quality bespoke containerised generator sets ranging from 110kW to 3.5MW for Diesel, LPG, CHP, and NG Gas applications. Our containerised solutions ...

Whether you are a ship manager in need of temporary additional or replacement power, or a supplier to the maritime industry renting out containerized generator sets, the ...

We rely on a dual pack configuration to achieve the kW outputs on the higher end of our containerized line. Simply put, dual packs are two parallel ...

This guide is about the installation of containerized diesel generator sets, covering site preparation, foundation construction, basic ...

Move generator set against container and fully engage clamps into mating holes in container castings. On both clamps, turn the actuating hand lever (C) into the vertical down position ...

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ...

In summary, the configuration and installation of generator containers involve several critical steps that must meet the technical requirements of the generator set and adapt to different operating ...

Designed with vertical hot air discharge, QSK60 Series Containerized Generators is suitable for multiple site installations, with flexible layout and footprint saving.

This article will explore the key elements in the design of containerized diesel generator sets, from power output and interface configuration to noise reduction, protection, ...

At CPS, we specialise in offering high-quality bespoke containerised generator sets ranging from 110kW to 3.5MW for Diesel, LPG, CHP, and ...
