How long does it take to manufacture and deliver a mobile PV container? Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks.

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular ...

How long does it take to manufacture and deliver a mobile PV container? Standard solar container models can be manufactured and ready to ship ...

Using our global network of air and sea carriers, we design a solar energy logistics solution that transports your solar panels or solar panel components efficiently and safely to their destination.

Heavy solar equipment can't always be delivered in a standard shipping van or shipping container, it's at risk of being damaged ...

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with ...

When the decision to transition is primarily driven by economic considerations, the optimal approach involves implementing a standard 5-year transition plan. Ready to start your project?

Heavy solar equipment can't always be delivered in a standard shipping van or shipping container, it's at risk of being damaged during transit, and it needs to arrive onsite ...

The PFIC25K55P30 is a compact all-in-one solar storage system integrating a 25kW power output, 55kWh
