What is a twin power container?

The Twin Power container solution is a container that combines two engine/alternator assemblies with/without CHP in a 40ft container, making it perfect for applications that require variable or continuous power. Because you have two generators on a single platform, you have the flexibility you need to meet a 100% load or even a smaller load.

What is included in a container generator?

The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, control panel and accessories such as lighting and fire extinguishers. Apart from the preparations for the load connection no further construction work at site is necessary.

Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

What is the capacity of a container power generator?

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in soundproof, weatherproof ISO container with a length of 10', 20' or 40'.

MITTRONIK Engineering is specialised in customized solutions. The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, ...

The Twin Power container solution is a container that combines two engine/alternator assemblies with/without CHP in a 40ft container, making it perfect for applications that require variable or ...

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, ...

We design and build container generator units, shipping container power units, and modular generator housing that meet the highest standards of safety and performance.

Generator set enclosures for small, standard, oversized containers and bespoke units. FG Wilson (Dublin) Ltd, work with your specifications to deliver a custom-made product. We are an Irish ...

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of ...

We specialise in offering high-quality bespoke containerised generators from 110kW to 3.5MW for Diesel, LPG, CHP, and NG Gas application

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various ...

Kohler provided 4 x 2500Kva containerized generator sets using class leading HVO-powered engines in bespoke super silenced containers. ...

Kohler provided 4 x 2500Kva containerized generator sets using class leading HVO-powered engines in bespoke super silenced containers. These generator units synchronize not only ...

Buy containerised generators from Generators for Export. We provide domestic & international shipping of used containerised diesel generators.

Our experienced conversions team can design and fabricate shipping containers with cooling louvres that enable the use of a generator in any environment.
