---

Our findings provide policymakers a second opinion on how to scale up solar and wind with battery storage to contribute to future significant ASEAN decarbonization.

Countries like China, Japan, South Korea, and Taiwan are investing heavily in wind, solar, and hydro projects to meet their climate commitments. With numerous players vying for ...

The Export-Import Bank of Korea is investing in a 132 MW solar plus 325 MWh battery energy storage project in Guam, under development by a consortium of Korean ...

In India, developers are moving quickly to pair renewables with advanced storage technologies. Companies like Envision and SUN Terra are planning multi-hundred-megawatt ...

The joint US$80 million Development and Construction Facility ("the Facility") will finance the development and construction of solar, hybrid solar, and battery storage projects in ...

Global Energy Monitor"s Global Solar Power Tracker and Global Wind Power Tracker currently catalog more than 28 GW of operating utility-scale solar and wind capacity across ASEAN ...

In India, developers are moving quickly to pair renewables with advanced storage technologies. Companies like Envision and SUN Terra ...

In addition to promising low-cost energy, there are opportunities to localize large proportions of the solar and offshore wind supply chains required for fully operational power ...

In addition to promising low-cost energy, there are opportunities to localize large proportions of the solar and

offshore wind ...

As turbine technology advances and governments commit to net-zero targets, both onshore and offshore wind projects are gaining scale across the continent. However, success varies ...

Chinese renewable generation reached 366 terawatt-hours (TWh), making wind and solar the country"s largest sources of new power. This transformation has also driven the ...

This report assesses the opportunities and readiness of Southeast Asia"s power sector to integrate variable renewable energy (VRE) - solar and wind - at scale and identifies ways to ...
