Growing energy demand means the U.S. will almost certainly have to expand its electricity grid in coming years. What's the best way to do this? A new study by MIT ...

At the MIT Energy Initiative's Annual Research Conference, speakers highlighted the need for collective action in a durable energy transition capable of withstanding obstacles.

CMEI drives U.S. leadership in the research, development, validation, and effective utilization of energy technologies and processes, ensuring an integrated energy system that is ...

In MIT course 15.366 (Climate and Energy Ventures) student teams select a technology and determine the best path for its commercialization in the energy sector.

The new Schmidt Laboratory for Materials in Nuclear Technologies (LMNT) at the MIT Plasma Science and Fusion Center accelerates fusion materials testing using cyclotron ...

Unlocking its secrets could thus enable advances in efficient energy production, electronics cooling, water desalination, medical diagnostics, and more. "Boiling is important for ...

This is a Notice of Intent (NOI) to Issue Infrastructure Investment and Jobs Act (IIJA) Notice of Funding Opportunity (NOFO) No. DE-FOA-0003583, titled: Mines and Metals ...

New research emphasizes the importance of well-validated models and forecasting tools in evaluating choices for investments in clean energy technologies and ...

MIT researchers developed a new fabrication method that could enable them to stack multiple active

components, like transistors and memory units, on top of an existing ...

To compete globally, we must expand energy production and reduce energy costs for American families and businesses. America must lead the world in innovation and ...

With the pressing need for more American energy to meet the challenges of AI and secure our nation's energy dominance, President Trump's vision for a revitalized U.S. nuclear ...

The program will target ammonia, a crucial ingredient for fertilizer, and critical metals that are important for key energy technologies. Most ammonia applied to agricultural ...

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed ...

Fiscal Year 2026 Budget Justification documents to support the Department of Energy Budget Request to Congress

The U.S. Department of Energy's mission is to ensure America's security and prosperity by addressing its energy, environmental, and nuclear challenges through transformative science ...

As MIT's first vice president for energy and climate, Evelyn Wang is working to broaden MIT's research portfolio, scale up existing innovations, seek new breakthroughs, and ...
