How much mpg does an ESS make?

It is technically a mild hybrid setup and provides about 90 ft lbs of torque in addition to the engine's power, so it should produce its gains in city and stop and go driving. I'm not sure how much, because I have not lived with it. ESS alone, on mine, produces about 1 mpg gain on my commute, which is stop/go.

What is the ESS tuning S550 GT 5.0 supercharger?

and this is the product description. The intercooled ESS Tuning S550 GT 5.0 supercharger system is the culmination of over 25 years of forced induction experience and over 10,000 supercharger systems sold worldwide to date. The G3 supercharger has a max capacity of 1600 CFM, and is ideal for the Coyote application in power ranges of 700-950 WHP.

Does the ESS S550 coyote have a supercharger?

The system is virtually inaudible with the hood closed, straight cut gears is available as a no cost option if supercharger whine is desired. And like all ESS supercharger systems, the S550 Coyote kits are extensively tested and guaranteed for 1 year against any hardware malfunction or defect regardless of mileage.

How long is the ESS S550 Coyote warranty?

And like all ESS supercharger systems, the S550 Coyote kits are extensively tested and guaranteed for 1 year against any hardware malfunction or defect regardless of mileage. We offer a full spare parts and upgrade part web shop for this system as well under our parts and maintenance section.

Between those two years, nothing has changed on the Hurricrates. You'll get essentially the same 3.0-liter twin-turbo I-6 engines ...

We wanted to offer a true, fully forged 1000hp version of the LT5, but in a full ready to swap drivetrain. In fact before its discontinuation we were planning on using LT5 blowers. Originally ...
