On 26 September Siemens Gamesa Renewable Energy (SGRE) celebrated the topping-out ceremony of its electric thermal energy storage (ETES) facility in ...

Construction has officially started on the Hamburg Green Hydrogen Hub (HGHH) at the former Moorburg coal-power plant site. The project will install a 100 MW PEM electrolyser ...

The Hamburg-based company acquires, structures, finances and operates clean infrastructure projects with a long-term, buy-build-operate approach for the clean energy ...

This EU-supported project is making an important contribution to Germany's and Hamburg's transition to cleaner energy sources and is helping improve air quality across the region.

The ETES (electric thermal energy storage) pilot plant in Hamburg, Germany -- at the site of a decommissioned conventional power plant -- converts electrical energy into hot ...

By using standard components, it is possible to convert decommissioned conventional power plants into green storage facilities (second-life option). Hamburg Energie ...

The ETES (electric thermal energy storage) pilot plant in Hamburg, Germany -- at the site of a decommissioned conventional ...

The 130MWh Electric Thermal Energy Storage (ETES) demonstration project, commissioned in Hamburg-Altenwerder, Germany, in June 2019, is the precursor of future ...

The 130MWh Electric Thermal Energy Storage (ETES) demonstration project, commissioned in

Hamburg-Altenwerder, Germany, ...

Hamburg-Moorburg's former coal-fired power plant is on track to become a key site for green hydrogen production. However, the project, initially set to start operations in 2025, now faces ...

Under the agreement announced on Wednesday, Hamburg-based Hansa Battery will develop the projects up to construction readiness and secure binding grid reservations. ...

Discover how Hamburg's cutting-edge energy storage solutions are reshaping renewable energy integration and grid stability. This article explores the technical innovations, environmental ...
