What is the global uninterruptible power supply (UPS) market size?

The global uninterruptible power supply (UPS) market size is estimated at USD 9.53 billion in 2024 and is anticipated to reach around USD 14.27 billion by 2034, expanding at a CAGR of 4.12% from 2024 to 2034. By geography, the Asia Pacific accounts for the rapidly growing demand for UPS market.

How big is the uninterruptible power supply market in 2024?

These top companies collectively held over 55% of the market share in 2024. The uninterruptible power supply market size exceeded USD 12.1 billion in 2024 and is expected to grow at a CAGR of 5.6% from 2025 to 2034, driven by the rapid expansion of data centers fueled by cloud computing, AI workloads, and digital transformation efforts.

What are the top 7 companies in the global uninterruptible power supply industry?

Top 7 companies of global uninterruptible power supply industry are Eaton, Huawei, Vertiv, Schneider Electric, Delta Electronics, Riello UPS, ABB, collectively hold more than 55% of the market in 2024. Eaton is the prominent leader in power management and full range UPS solutions to critical infrastructure.

What is the global UPS market share in 2024?

The Less than 10 kVA segment dominates the global UPS market, holding approximately 47% market share in 2024. This significant market position is primarily driven by the widespread adoption of UPS systems in residential computer systems and consumer electronics that operate on lower power voltages.

Uninterruptible power supply (UPS) refers to an improved battery system that will self-activate during power outage and act as the main power source up until electronic gadgets can be ...
