---

The European Commission (EC) has authorised EUR1 billion (\$1.08 billion) in Greek state aid to help fund the development of two solar-plus-storage projects. The total capacity of ...

Battery Energy Storage Systems (BESS) in Greece are transitioning from early-stage pilots to critical infrastructure, driven by a rapidly maturing regulatory framework and ...

Battery Energy Storage Systems (BESS) in Greece are transitioning from early-stage pilots to critical infrastructure, driven by a ...

Greek renewable energy company Faria Renewables is looking to the financial sector for backing to build its planned battery ...

The Greek Ministry of Energy and Infrastructure has increased its target for a merchant standalone battery energy storage ...

Public Power Corp. (PPC Group) is launching construction on two battery energy storage systems (BESS) in northern Greece, of 48 MW / 96 MWh and 50 MW / 100 MWh.

The Greek Ministry of Energy and Infrastructure has increased its target for a merchant standalone battery energy storage system (BESS) rollout to 3.55 GW against the ...

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, Greece has provided support to 900 MW of standalone ...

As renewable energy adoption accelerates globally, Greece emerges as a pioneer in combining solar power with smart charging infrastructure. This article explores how photovoltaic charging ...

The Thessaly battery project is a cornerstone of a much larger national strategy to build out Greece's energy storage infrastructure. This initiative follows a competitive auction in ...

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, ...

A hybrid energy project on the Greek Aegean island of Tilos uses 2.88MWh of battery storage and demonstrated how the island could reach high shares of renewable energy.

Greek renewable energy company Faria Renewables is looking to the financial sector for backing to build its planned battery energy storage system (BESS) with a power ...

Greek utility PPC Group has officially broken ground on a hybrid solar and battery energy storage system (BESS) on the island of Astypalea, aiming to cover more than 80% of local electricity ...
