The project seeks to integrate three solar photovoltaic generating facilities totalling a 15.1MW capacity and a 10.6MW/21.2MWh ...

The project seeks to integrate three solar photovoltaic generating facilities totalling a 15.1MW capacity and a 10.6MW/21.2MWh Battery Energy Storage System (BESS), with the ...

Grenada is committed to achieving 100% renewable energy in its electricity and transport sectors by 2030. The project aligns with this ambitious goal and will contribute to the ...

From solar to wind, we offer eco-friendly alternatives tailored to your energy needs, reducing your carbon footprint. We specialize in designing, installing, and maintaining systems for reliable ...

Installing a solar energy system on your home or building has never been easier. Call or email Power Shift and we will explain each step of the ...

The energy regulator of Grenada is seeking expressions of interest (EOI) for a solar or solar-plus-storage project at the Caribbean ...

Installing a solar energy system on your home or building has never been easier. Call or email Power Shift and we will explain each step of the process and provide a free estimate for your ...

Grenada is committed to achieving 100% renewable energy in its electricity and transport sectors by 2030. The project aligns with this ...

Grenada recently completed a solar power generation system for a solar container communication station

The Grenada solar energy storage project construction represents a critical step toward energy independence. With rising electricity costs and climate risks, this initiative combines solar ...

Provide the solar PV and battery storage IPP market with the opportunity to share critical project-related information, such as the estimated project duration and estimated plant space ...

Solar photovoltaics (PV) have high potential on Grenada because the country's global horizontal irradiation exceeds 5 kWh/square meters per day. A 2- to 4-MW PV installation is planned, but ...

Why should you choose a 5kw Solar System & 5kwh lithium-ion battery storage?Experience the freedom of energy independence with our 5kW solar system and 5kWh lithium-ion battery ...

From solar to wind, we offer eco-friendly alternatives tailored to your energy needs, reducing your carbon footprint. We specialize in designing, ...

The energy regulator of Grenada is seeking expressions of interest (EOI) for a solar or solar-plus-storage project at the Caribbean island nation's main international airport.

The chart below describes and reviews some of the current renewable energy options we have investigated, along with their advantages and disadvantages for Grenada.
