Can you build a container home in Australia?

Building a container home in Australia is an exciting, cost-effective path to home ownership -- but understanding costs and regulations is critical. Unlike modified shipping containers, our purpose-built modular homes are designed for BAL-FZ compliance, energy efficiency, and long-term durability.

How much does a container home cost?

Whether you're looking for a complete home or just need a single-room studio, our container homes and units are designed for real living. With prices starting at just \$15,000, container homes are the most affordable living solution. Contact us today! At HTC, we believe you shouldn't have to sacrifice quality for price.

Why are shipping containers so expensive?

Shipping container prices can vary depending on several key factors: Size & Type - 40ft and High Cubes cost more than standard 20ft units. Condition - New (one-trip) containers are more expensive than used or refurbished. Delivery Location - Remote or regional delivery may incur higher transport costs.

How long is a shipping container home?

Shipping containers generally come in standard 20-40 footlong units (that's 6-12 metres in metric system terms), and are used as homes either as singular containers, or by connecting several together.
