How much does a container farm cost?

Our container farms are available for \$180,000 as an outright purchase or for \$3,000 USD/month through the Growcer Fund--a farm-as-a-service model that reduces upfront costs up to 75% and includes installation, maintenance, and premium support without capital purchase requirements. How does Freight Farms support its customers?

How much does a 40 foot shipping container cost?

Starting at \$4,350 or Purchase for as low as \$197.73/month. Our 40-foot shipping containers are tough, sturdy, wind and watertight, and designed to keep contents safe and dry. Their size and availability make them the most cost-effective size, offering the lowest cost per square foot. Finding comparable storage space at this price is hard to find.

How many tons can a freight farm grow?

Our Freight Farms use vertical farming methods and a closed-loop system to create a highly water-efficient and productive, compact growing space. With over 500 crop varieties available to choose from, one Freight Farm can grow 2-6 tons of produce annually. What is the cost of the container farm?

Is a 40 ft container a good value?

They are graded as Cargo Worthy, Windwater Tight or As Is. As previously mentioned, Container Management, Inc. never sells As-Is condition containers. As a general rule of thumb, a used 40-foot standard container will be priced around 30% more than a used 20-foot container, of the same condition.

While there's no one-size-fits-all answer since every project is unique, it's safe to ballpark an upfront investment between \$50K-\$85K for most standard 40-foot containers ...

Our container farms are available for \$180,000 as an outright purchase or for \$3,000 USD/month through the
