What is a shipping price estimate?

The Shipping Price Estimator enables you to estimate the cost of shipping without listing the item on the uShip marketplace. Using basic information about your shipment, the Shipping Price Estimator returns the average price paid by other uShip members for comparable shipments. What is a "comparable shipment"?

How do I find the most cost-effective shipping service?

Provide the origin, destination, and weight of your shipment to compare service details then sort your results by time or cost to find the most cost-effective shipping service. Log in and select a UPS account to receive the most accurate rate and delivery time information.

How are shipping costs calculated?

Shipping costs are calculated based on the distance your package needs to travel and the volumetric weight. The volumetric weight tells the courier how much space your parcel will occupy on a van or aircraft. The good news is, you don't need to know the volumetric weight of your parcel to get a shipping quote.

How does the Shipping Price Estimator work?

The Shipping Price Estimator enables you to estimate the cost of shipping without listing the item on the uShip marketplace. Using basic information about your shipment, the Shipping Price Estimator returns the average price paid by other uShip members for comparable shipments.
