????, Enterprise Account Manager, Sales Representative? ??? 11,811 ? ??? ?? ??? ??? Indeed ? ?????!

We coupled heuristic algorithm with GIS to maximize the service coverage of 5G base stations.

By improving base station energy efficiency, the green antennas can lower down the power requirement by 2 dB while keeping the same coverage. The average site-wide ...

Solutions Engineer, ????, Sales Representative? ??? 6,360 ? ??? ?? ??? Indeed ? ?????!

To address this, we propose a novel deep learning model for 5G base station energy consumption estimation based on a real-world dataset. Unlike existing methods, our approach integrates ...

We demonstrate that this model achieves good estimation performance, and it is able to capture the benefits of energy saving when dealing with the complexity of multi-carrier base stations ...

For energy efficiency in 5G cellular networks, researchers have been studying at the sleeping strategy of base stations. In this regard, this study models a 5G BS as an (M^ { ...
