While this document provides a general approach to selecting a financing mechanism for renewable energy generation, storage, and/or energy efficiency, it does not contain tax and/or legal advice.

We offer a comprehensive product and service chain, from PV container design and energy storage system integration to an EMS intelligent dispatching platform. We help businesses ...

Our integrations with Green Bridge Energy, Sustainable Capital Finance, and Luminia have proven to streamline the process of generating indicative PPA and PACE loan financing for commercial solar, energy storage, ...

Each system integrates solar PV, battery storage, and optional backup generation in a modular, pre-engineered platform that is scalable for projects ranging from 5kW to 5MW+.

Securing debt for BESS and hybrid projects requires a "bankable" revenue forecast from lenders preferred consultants. Developers need their own flexible modelling tools to optimise project ...

Our integrations with Green Bridge Energy, Sustainable Capital Finance, and Luminia have proven to streamline the process of generating indicative PPA and PACE loan financing for ...

Researchers have modeled a hybrid financing scheme combining contracted and merchant components to improve the bankability of PV-battery energy storage system (PV-BESS) assets, using a...

Researchers have modeled a hybrid financing scheme combining contracted and merchant components to improve the bankability of PV-battery energy storage system (PV-BESS) ...

We offer commercial energy storage systems that integrate with solar & EV charging stations via PPA, helping businesses save on energy costs.

Recent weeks have seen a flurry of announcements concerning financing facilities for major solar and storage projects. Such schemes are extremely fashionable, particularly in the US.

The role of the power purchase agreement (PPA) is becoming more critical than ever, with hybrid deals emerging as the go-to model. This article explores how hybrid PPAs can unlock ...

With strong engineering support and procurement capabilities, we are well placed to offer competitive and comprehensive Solar PV + Energy Storage Solutions, which will have the lowest possible LCOE.
