Which solar inverter should I buy in Ireland?

When investing in a solar PV system, it's important to choose a reliable model of inverter that gives you long-term performance and durability. Popular and highly recommended brands in Ireland include SIGENERGY, Huawei and Solis. These manufacturers are known for developing cutting-edge energy solutions for home and business.

What is a solar inverter & how does it work in Ireland?

Solar energy is becoming more popular in Ireland as homeowners look for ways to save money on electricity and reduce their impact on the environment. A solar inverter is a key part of any solar system, as it converts the energy from your solar panels into electricity you can use in your home.

Which inverter brands are available in Ireland?

Popular and highly recommended brands in Ireland include SIGENERGY, Huawei and Solis. These manufacturers are known for developing cutting-edge energy solutions for home and business. We only source inverters from trusted manufacturers to guarantee that your system remains efficient and reliable over the years.

How much does a solar inverter cost?

Prices range from the poorer-quality inverters (starting at around EUR300) to the more reputable options - some of which include remote monitoring - which cost around EUR800. As inverters are essentially the brains of the solar panel system, it's definitely worth paying more for great quality.
