How much does a container home cost in Jamaica?

This translates to lower construction costs, making container homes around 45% cheaper than similarly sized cement homes. In Jamaica, container homes can be purchased for as little as USD 5,000, depending on customization and size. Quick Construction: One of the most significant advantages of container homes is the speed of construction.

What is a container home in Jamaica?

In Jamaica, container homes are insulated and reinforced to withstand the island's climate, with options for customization such as interior finishes, exterior cladding, and the inclusion of facilities like air conditioning and solar panels.

Are prefabricated container homes a sustainable housing option in Jamaica?

The adoption of these homes in Jamaica is steadily increasing, driven by both local initiatives and international companies like Green Block Development and Karmod, which have introduced prefabricated container homes as sustainable and affordable housing options.

Who is bringing prefabricated steel & container homes to Jamaica?
