Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ...

OverviewHistorySpecificationsMain characteristicsReconstructionThe Kyiv Pumped Storage Power Plant (PSPP) (Ukrainian: *Київська насосна станція з накопиченням гідроенергії* (Kyiv)) is a pumped-storage power station on the west bank of the Kyiv Reservoir in Vyshhorod, Ukraine. The Kyiv Reservoir serves as the lower reservoir and the upper reservoir is located 70 m (230 ft) above the lower. Water sent from the upper reservoir generates electri...

Fluence and DTEK (through its subsidiary DTEK Renewables) plan to complete the project by October 2025, so that systems are in place before the 2025/26 winter season to ...

Kyiv PSPP is a 255.912MW hydro power project. It is planned on Dneipr river/basin in Kiev, Ukraine. According to GlobalData, who tracks and profiles over 170,000 ...

The Kyiv Pumped Storage Power Plant (PSPP) (Ukrainian: *Київська насосна станція з накопиченням гідроенергії* (Kyiv)) is a pumped-storage power station on the west bank of the Kyiv ...

Our 1 GW project combines gas, solar, and battery storage to secure Kyiv's grid, cut emissions, and support critical services. Explore investment in this high-impact initiative.

The company sees battery energy storage facilities as a path to decentralization and unification with the EU. In March, DTEK announced ...

DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation spans six sites ...

DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 ...

The new plant, with an expected capacity of up to 600 MW of electricity and 300 MW of heat, is intended to enhance the city's energy stability, reliability, and autonomy. It will help reduce the ...
