Nicknamed the "super power bank" by industry insiders, the Xinjiyuan 2000 sets a new standard in mobile energy solutions with its advanced safety architecture, cutting-edge ...

As the first liquid-cooled, 10-meter class mobile energy storage vehicle with the world's largest capacity in the industry so far, "Xin Era" is a bold innovation of Sunwoda in the ...

For uninterrupted grid maintenance needs, our mobile energy storage vehicles replace traditional diesel generators, enabling grid-connected/off-grid uninterrupted operation for planned and ...

Liquid-cooling integrated mobile energy storage vehicles are advanced power solutions that combine energy storage systems with liquid cooling technology. These vehicles ...

With its innovative features such as large capacity, high power, and first liquid cooling system, it sets the stage for a new era in mobile energy storage.

Sunwoda Energy has recently unveiled the Sunwoda MESS 2000, the world's first 10-metre-class mobile energy storage system vehicle with a 2 MWh energy storage capacity.

The CIMC-MEST Energy Storage Vehicle (MESV) uses batteries as energy storage with a PCS system, featuring mobility, eco-friendliness, and flexible power supply for EV charging, ...

Unconventional oilfields in regions like the Permian Basin require portable, high-capacity energy solutions to power hydraulic fracturing equipment. A single LiMESV can ...

the industry so far, "Xin Era" is ...

The CIMC-MEST Energy Storage Vehicle (MESV) uses batteries as energy storage with a PCS system, featuring mobility, eco-friendliness, and ...

Sunwoda Energy has recently unveiled the Sunwoda MESS 2000, the world's first 10-metre-class mobile energy storage system ...

Currently, the Sunwoda mobile energy storage vehicle has been prototyped and will be mass-produced and launched in Q3. According to reports, this ...

Chinese energy technology company Sunwoda has introduced the world's first 10-meter-class, 2MWh liquid-cooled mobile energy storage vehicle at ESIE 2025.

Currently, the Sunwoda mobile energy storage vehicle has been prototyped and will be mass-produced and launched in Q3. According to reports, this product uses 314Ah lifepo4 battery. It ...

With its innovative features such as large capacity, high power, and first liquid cooling system, it sets the stage for a new era in ...
