Green Genius has secured EUR64 million (US\$75 million) in finance to support the development of a solar-plus-storage portfolio in ...

AlphaESS delivered a hybrid energy storage solution for Lithuania's InnoSolveGreen project, featuring a 2MW/4MWh liquid-cooled battery system and a 1MW/2MWh air-cooled container ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

In this energy-as-a-service PPA, Green Genius will develop, construct, commission, and operate two solar-plus-storage systems in Lithuania. These systems will supply renewable energy to ...

Lithuanian renewables developer Green Genius has picked up financing for an energy-as-a-service (EaaS) project that will involve installation of 6.5 MW of solar power and 6 MWh of ...

The Svencionys site combines a 45MW / 90MWh battery energy storage system with a 70MWp solar PV plant, while the Moletai site pairs a 20MW / 40MWh BESS with a ...

The storage units installed in this project will store surplus solar energy and the cheapest available electricity. This low-cost electricity will be supplied to the factory, ...

SunContainer Innovations - Lithuania's second-largest city, Kaunas, is rapidly becoming a hub for clean energy innovation. With ambitious EU climate targets and growing demand for grid ...

Set to host large-scale solar PV and wind facilities, the South West REZ will also feature a 300MW/650MWh
