-----

Lithuania added record solar capacity in 2024, pushing cumulative installations to nearly 2 GW, driven largely by residential systems and a favorable regulatory framework.

This park will comprise over 150,000 solar modules meticulously mounted on Nordic Solar's patented steel structure. Designed to optimize energy production, this ...

Nikolaj Holtet Hoff, CEO of Nordic Solar, remarked that investing in Lithuania represented a significant milestone for the company, marking the completion of their largest project to date.

Lithuania's second-largest city, Kaunas, is rapidly becoming a hub for clean energy innovation. With ambitious EU climate targets and growing demand for grid flexibility, container energy ...

Lithuania powers up its largest solar park, a 100 MW facility in Moletai developed by Nordic Solar. Learn how this project supports 28,000 homes and the nation's energy ...

This 100 MW facility marks Nordic Solar's first significant investment in Lithuania. Detra Solar provided design and engineering services for the construction of this park.

Expected to generate around 100 GWh of renewable energy annually, the farms will reduce CO2 emissions by about 67,000 tonnes each year. Construction begins in August ...

Lithuania powers up its largest solar park, a 100 MW facility in Moletai developed by Nordic Solar. Learn how this project supports ...

VILNIUS - Green Genius, a Lithuanian renewable energy company, plans to invest 179 million euros into solar farms in Lithuania and Latvia. The construction of both power ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

This park will comprise over 150,000 solar modules meticulously mounted on Nordic Solar's patented steel structure. ...

Nikolaj Holtet Hoff, CEO of Nordic Solar, remarked that investing in Lithuania represented a significant milestone for the company, marking the ...

We are nearing the completion of technical design work for our 375 MWp solar park in the Dukstas eldership and aim to secure the construction permits by mid-next year. We ...
