-----  
What is a containerized power module?

Fueled by natural gas, the power module is dedicated to the production of electrical energy. Containerized power module with a power output of 3MW. Plymouth, UK. Flexible generation power plant to balance the local electricity network in an area with growing demand. 2 containerized power modules with a combined power of 5 MW. Yeovil, UK.

Why should you choose Jenbacher containerized gas power generation solutions?

Jenbacher containerized gas power generation solutions offer a variety of benefits to our customers, thanks to distinctive product features: See for yourself.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

This product is a new energy storage box (multi-purpose backup power station), built-in high-capacity LiFePO<sub>4</sub> pouch cells, combined with a high-strength aluminum alloy shell, is a ...

A solar energy shipping container is essentially a compact, pre-engineered energy system that integrates solar generation and large-scale storage into one robust, transportable unit.

MOBISMAART is the leading provider of advanced, mobile, solar off-grid power generation and storage systems that can be easily deployed to construction sites in urban, rural and remote ...

Luxembourg's ambitious renewable energy targets and innovative policies have transformed it into a

laboratory for cutting-edge energy storage solutions. Let's explore how businesses and ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

These self-contained, plug-and-play units generate electrical power and come with all necessary equipment and Balance of Plant (BoP) components. Each unit is fully assembled and ...

Modern container home builders in Luxembourg offer customizable options tailored to your specific needs. From compact, minimalist designs to expansive, multi-unit structures, ...

Modern container home builders in Luxembourg offer customizable options tailored to your specific needs. From compact, ...

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play ...

Power generation, cogeneration or trigeneration, we deliver high-quality containerized plants that are modularly designed to meet your project's unique requirements. Our plants support ...

The main part of the container mobile house is made of steel, with an earthquake resistance level of at least level 9 and can withstand level 12 typhoons, with a service life of more than 30 years;
