London-based investor Actis has agreed to invest in the Terra Solar Project in the Philippines. The planned installation has been touted as the world's largest solar-plus-storage array.

Actis will bring its rich experience in contracting, constructing, and operating infrastructure assets to the project. The project is located about 100 km from Manila. It plans to pair 3.5GWp solar PV capacity with 4.5GWh battery ...

The project plans to pair 3.5GWp of solar PV capacity with a 4.5GWh battery energy storage system (BESS). It could be the largest in the world by capacity, in terms of solar, BESS as ...

Located on the Philippines' main island of Luzon, some 100km from Manila, The Terra Solar project is in the latter stages of development. It will combine 3.5GWp of solar PV capacity with ...

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy ...

Infrastructure investor Actis has entered a strategic partnership with the companies behind a 3.5GW solar, 4.5GWh battery energy storage system (BESS) project in the Philippines, one ...

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS).

Explore the Philippines' new solar project featuring cutting-edge battery storage systems, aimed at boosting renewable energy capacity and sustainability.
