The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

Leveraging the strong industrial foundation of the CIMC Group, the company offers robust and scalable modular solar containers designed for diverse applications, including off-grid ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

PV containers offer a modular, portable, and cost-effective solution for renewable energy projects, providing rapid deployment, scalability, and significant financial benefits, ...

PVpallet designs reusable pallets, solar module packaging, and BOS bulk containers for residential, commercial, and utility-scale solar projects. Reduce waste, improve efficiency, and ...

The Mobil-Grid $\#174$; is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and ...
