@lonestudent It really isn't that simple, y doesn't have a tangible value, only a range of possible values it could be. An easy counter-example to your claim is x having the ...

Currently learning about spanning trees and using Kruskal's algorithm and I was wondering whether a minimum weight spanning tree of a weighted graph must contain one of ...

In this way, you have to generate only a small fraction of all the codewords to find the minimum distance, and the idea can be generalized to any linear code. The first step then is to find a ...

Alternatively, to avoid ambiguity, reserve the term "minimum cut" for flow networks, and use precise terms like minimum edge cut, minimum cutset, minimal edge cut ...

What is the difference between the minimum value and the lower bound of a function? To me, it seems that they are the same.

What is the difference between minimum and infimum? I have a great confusion about this.

I'm searching for some symbol representing minimum that is commonly used in math equations.

Finding minimum using Lagrange multipliers Ask Question Asked 10 years, 11 months ago Modified 10 years, 11 months ago

I have been playing the app Euclidean, I have been doing quite well but this one has me stumped.
"Construct a triangle whose perimeter is the minimum possible whose ...

Minimum overall system solution for energy storage
