What are 21700 battery cells?

21700 battery cells are a type of lithium-ion battery that are perfect for high-capacity and high-performance applications like e-bikes, solar storage, and DIY battery packs. You can find premium 21700 lithium-ion batteries from top brands like Samsung, Molicel, EVE, LG Chem, Panasonic, and JP40.

What is an unprotected 21700 battery?

Unprotected 21700 Batteries: Designed for battery packs or high-performance applications where external battery management systems (BMS) handle protection. 21700 batteries are becoming the industry standard for devices requiring longer runtime and more power. Some common applications include:

Are 21700 batteries better than 18650 batteries?

They offer a higher capacity than 18650 batteries and are known for their high energy density, long lifespan, and relatively low self-discharge rate. They are becoming more popular in recent years, and many electronic devices that used to use 18650 batteries are now transitioning to use 21700 batteries.
