-----  
Can you use a portable power station as a ups?

Yes,a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features,like automatic switchover when power loss is detected.

What is the best portable power station?

Bluetti AC 200 Max (2,048 Wh) (Update: Out of stock): The AC200 Max once held our title for the best value portable power station, giving you a 2,048 watt-hours of capacity (expandable to 8,192Wh), 2,200-watt output (4,800-watt surge) and 900 watts of solar charging power (1,400-watt solar plus AC). That's nothing to laugh at in this price range.

Are portable power stations a good investment?

If you buy through our links,we may earn a commission. Whether you live in an area prone to power outages or want to take a way to power up with you on the road or camping,a portable power station can be an excellent investment,especially in the dark and cold winter months.

What is a portable power station?

Portable power stations are generally designed to power smaller electronic devices and appliances,from phones and table fans to heavy-duty work lights and CPAP machines. Pay attention to the estimated watt-hours each brand provides in its specs to determine which model makes the most sense for what you'd like to power.
