---

The simulations of key scenarios demonstrate that a 100 % RE system for Mauritius is technically feasible within reasonable costs. Solar photovoltaic (PV) and battery energy ...

The objective is to gradually replace coal with local renewable sources and achieve a planned, irreversible transition to a cleaner energy mix by 2035, supported by national ...

Paris, August 7, 2025 - Independent renewable energy company Qair announces the closing of a new loan to support the implementation of a hybrid solar photovoltaic and battery energy ...

The CEB has installed the first grid-scale Battery Energy Storage System (BESS), the first in its kind in Mauritius, to enable high capacity storage of renewable energy in the grid.

French renewable energy producer, Qair, has signed four PPAs with the Central Electricity Board (CEB) of Mauritius for the development of solar PV energy facilities and battery storage ...

Under this contract, Huawei will deliver a comprehensive smart photovoltaic (PV) and energy storage system (ESS) solution, featuring a total capacity of 100MW and 290MWh of energy ...

That's Mauritius today - a tropical paradise racing against rising sea levels while juggling energy security. Enter the 5GW energy storage initiative, essentially building giant ...

Mauritius is set to benefit from Qair's new hybrid solar and storage project, a significant development that will enhance the nation's energy security and accelerate its shift ...

The Government of Mauritius has inaugurated a 20 MW grid-scale battery energy storage system (BESS) at the Amaury Sub-station, marking a significant stride towards its ...

The Government of Mauritius has inaugurated a 20 MW grid-scale battery energy storage system (BESS) at the Amaury Sub-station, ...

French renewable energy producer Qair has secured a loan agreement to finance the construction of 60 MW of hybrid solar and storage projects in Mauritius.
